

Ellis Asadi-Wright

Software Engineer In-Training

Development Experience

Capital One Developer Academy (CODA) Associate

Capital One / February '22 - Present

- Participate in 6-month immersive software engineering training
- Utilize frontend languages such as HTML, CSS, and JavaScript to create web applications that run on modern browsers
- Develop back-end competencies by building full-stack web apps and APIs, following RESTful patterns and the MVC web development framework
- Leverage knowledge of the agile framework and Git collaboration practices to maximize the efficiency in team workflows

Senior Web Development Intern

Hopeworks Camden / December '21 - February '22

- Promoted as recognition for leadership, reliability, and willingness to learn
- Assisted Director and Supervisor in supporting interns, including facilitating onboarding process and serving as point of contact when needed
- Spearheaded project development for several large organizations, such as the New Jersey Association for Gifted Children (NJAGC) and Philabundance

Web Development Intern

Hopeworks Camden / August - December '21

- Translated Figma assets into WordPress builds using Elementor and CSS
- Maintained existing client websites, performing quality assurance measures by troubleshooting and debugging when needed
- Attended weekly lectures and workshops covering in-demand tech skills and competencies, such as agile, Jira, PHP, and Git

Internship Trainee

Hopeworks Camden / June - August '21

- Developed HTML, CSS, and Javascript skills through self-paced curriculum
- Demonstrated leadership by hosting site tours for potential Hopeworks investors, partners, and trainees
